

The COVID-19 pandemic has impacted our homes, our schools and our communities in ways we are just beginning to understand. While many of us struggle to manage the challenges brought on by school closures, workplace adjustments, and social distancing, the COVID-19 pandemic has further strained many of our local families through food insecurity, job loss, and housing uncertainty.

Be Strong/Sé Fuerte is a collaborative effort led by the Encinitas Educational Foundation (EEF) to support those families most in need. Through financial contributions from our community, EEF will provide funding to impacted families through the Encinitas Union School District's Community Liaison Program.

Be Strong/Sé Fuerte will work closely with EUSD to identify areas of greatest impact within the community. Currently, 250-300 students from throughout the District are participating in the daily Free Lunch Program administered at Ocean Knoll. Many other families are beginning to see how the Covid-19 pandemic will specifically impact them.

Be Strong/Sé Fuerte will expand the EUSD programs to provide additional food and supplies for these families. We will also work with EUSD as new challenges arise at each of our school sites, ensuring that all our families get the support that they need.

Be Strong/Sé Fuerte needs partners like you! Through your contributions, we will ease the impact of this devastating global pandemic and strengthen the connections and resilience within our community.
