EUSD Distance Learning Model 2020-21
Welcome

- Amy Illingworth, Ed.D.
  - Assistant Superintendent
  - Educational Services
- Glen Warren, M.Ed, M.S.Ed
  - Director, LOL
  - Educational Services
- Lourdes Alarcon
  - Interpretation and Translation Services
Schools open with Public Health Orders that limit capacity and/or spacing.

Schools are open with specific safety precautions and guidelines that allow for full attendance.

Schools are closed according to Public Health Order!

Our RE-ENTRY Committees

- Infectious Disease & Illness Prevention
- Physical Distancing and Operations
- Learning & Instruction includes Special Education
- Social and Emotional Wellbeing
- Childcare
Three Models of Learning

**Traditional**
Students meet daily face to face with their teacher at their designated school site. Technology is used as an enhancement to learning.

**Hybrid**
Students meet face to face twice a week with half of the students attending to promote social distancing, based on public health guidelines. Technology is used as both an enhancement and an extension of the classroom.

**Distance Learning**
Students do not meet face to face, they use technology as a means to access learning through the leadership of their teachers.
The EUSD Distance Learning Model is being created for the 2020-21 school year based on the current pandemic and community interest. This is a one-year learning opportunity for families who need this alternative to traditional school.
What is the EUSD Distance Learning Model?
Distance Learning Program

Learning @ Home
Kindergarten through Sixth Grade students will be accessing and learning from home under the direction of an EUSD Teacher.

Teachers
Encinitas Union Teachers will voluntarily apply for this program and will be dedicated to the students in this program for one year.

Students
Required synchronous and asynchronous learning will take place each day with clear schedule expectations. Students will complete teacher assignments.

Parents
Parents will communicate with teachers on student progress twice a month. A one year commitment is required for this program.

Technology
Although not all learning will take place using technology, the program requires connection technology to be used by all students.

Learning Community
This program will nurture a distance learning community of teachers, students and parents, and work together to advance student centered learning.
Students

- Monday- Thursday 8:00-12:00 → synchronous instruction and asynchronous learning experiences
- M- Th afternoons & Fridays → extended personalized learning, targeted inspiration and enrichment, with intervention supports
Connected Technology Required

- Daily iPad use
- Daily Wifi at home
Learning Agreement

My child will remain in the EUSD Distance Learning model for the entire 2020-2021 school year, from August 17, 2020 - June 18, 2021.
Learning Agreement

My child and I will attend an in-person or a virtual orientation in August to learn all program components.
Learning Agreement

My child and I will attend an appointment to pick up my child’s school materials (iPad, books, etc.) in August and to return the materials in June. This will be an opportunity to meet my child’s teacher face-to-face (following health guidelines).
Learning Agreement

My child will be required to complete schoolwork via an online Learning Management System, following the teacher’s daily schedule from Monday-Friday, including required Zoom sessions. Attendance will be taken daily.
Learning Agreement

My child and I will follow all Digital Citizenship requirements. Neither my child nor I will take pictures or recordings of any live/Zoom sessions or instructional interactions.
Learning Agreement

I will communicate with the teacher (and any other service providers) about my child’s progress every other week. My child’s teacher and I will also communicate via email.
Learning Agreement

My child will complete assigned classwork, homework, and assessments and will receive grades on a report card twice a year.
Learning Agreement

My child may be in a distance learning class that includes students from other grades (i.e. a Combination class) or with a larger class size than an in-person classroom.
Learning Agreement

I may request a meeting with my child’s teacher.

My child’s teacher may request in person or virtual meetings to discuss my child’s progress.
Learning Agreement

My child will be part of a distance learning campus with students from all other EUSD schools. This campus will have its own dedicated administrator and teachers for the year.
The EUSD Distance Learning Community

... a tapestry of learners
Speciality Programs - SPED

- All IEP services will be offered virtually.
- IEP meetings will be conducted virtually.
- Assessments will be conducted in person at the home school site, unless medical concerns preclude this.
- IEPs will need to be amended, to reflect adjustments that are needed due to the year long commitment to distance only instruction.
Speciality Programs - DLI

- There will not be an option for DLI in the distance learning model.

- Considerations: staffing patterns, enrollment projections, language development and face-to-face interactions
Speciality Programs - DLI

- Students currently in K-4th who do not participate in DLI because they engage in distance learning in 2020-2021 can re-enter the in-person DLI program in the 2021-2022 school year.
Speciality Programs - DLI

- Incoming Kinder students who have been accepted into the DLI program who do not participate in DLI because they engage in distance learning in 2020-2021 can re-apply for the DLI program in the 2021-2022 school year.
Why Now?

- We are currently planning for school next year. We need to know which students will come to school in person and which will opt-in to this distance learning model.
- The number of students who opt-in to this model will determine how many teachers are needed for distance learning.
- Staff need to know what they are teaching before summer.
Why a Full Year Commitment?

- Once we have determined the distance learning classes, staff are assigned to be the teacher for the year.
- Despite health changes, our program will remain in distance learning for the entire year.
2021-2022 School Year

- All students who opt-in to the distance learning model for the 2020-21 school year will be guaranteed a spot back in their home school for the following year.
Enrollment Procedures

- All EUSD families should have received an email from us yesterday about our learning models. The letter included links to enroll in full distance learning.
- If you decide distance learning is best for your child, the opt-in enrollment must be completed by Thursday, 6/11 at 9:00 PM.
Distance Learning Commitment

Thank you!
